

Corona virus/current status

Dear customers,

given the current difficult situation, we feel that it is necessary for us to get in touch with you personally. What we wanted to avoid – that happened unfortunately after only a few days. For the following products, we have run out of stock and are unable to fulfil your orders:

- **all types of face masks**
- **non-woven gowns**
- **overall**
- **clinical thermometers**

Please, find attached to this e-mail a list of all items that are currently not available.

Supplies of these items from China are rather unlikely in the next months. We will do our best to procure goods from other countries or buy back items from international customers. However, this will be a rather difficult undertaking since we are dealing with a global problem.

First of all, we will have to make concessions with regard to purchase prices because prices went up dramatically for all goods due to the great demand.

This development will also affect other items in the next weeks unless the virus can be contained.

We would kindly ask you to send any orders or enquiries for the above-mentioned items only to the following dedicated e-mail address: warteliste@ampri.de. We will collect your requests there and distribute any items as soon as we receive the corresponding goods.

You will then be informed about the possible quantities and the price. Once we have received confirmation from you, we will despatch the items to you.

Due to the great demand, we would need your confirmation within 24 hours – otherwise we will send the goods to other customers.

The situation caught all of us completely off-guard: the world-wide demand can impossibly be met. There are situations that simply overwhelm us, but by implementing the above measures we will do our best to help you.

Please, appreciate that, in this exceptional situation, we will not be able to meet everyone's needs.

Best regards
